

Brasseys Book of Camouflage (Special Editions)

This volume covers the history and development of camouflage. Modern camouflage appears in everything from soft pastel grey-greens to wildly exotic fluorescents. The book is also a recognition guide to 450 camouflage patterns from around the world. Subjects include the pioneering and now collectable camouflage equipment of the German Army in World War II, the famous Tigerstripe worn by American soldiers in Vietnam, plus the classic patterns worn by today's armies, including patterns in current use in South-East Asia and the former Soviet Union, and US desert camouflage and British disruptive patterns. Tim Newark is the author of *The Barbarians and Celtic Warriors*.
