

Bread or Death: Memories of My Childhood During and After the Holocaust

The war brought about scarcities of just about everything...except misery. Alle raise, (everybody out), the German soldiers screamed as they pounded on our door with the butts of their rifles. And thus began a 4,500-mile journey from Poland through Russia and Siberia and eventually to Uzbekistan in Central Asia, as the authors family used bribery and darkness of night to flee as the Nazis invaded Poland in 1939. Young Mendel, from age four to fourteen, tells in vivid detail the wretched journey in cramped cattle cars through frigid Russia, the indignities of being forced labor, the shame of begging for bread just to survive, and death of those closest to him. The familys plight includes abandonment, hunger, and separation (and later remarkable twists of fate and reunion) quite unlike other Holocaust stories. This coming-of-age Holocaust memoir is the authors personal account of howthrough great sacrifices by his motherhe managed to survive the worst atrocities in human history and his uncertain days in a Polish Childrens Home, scrabbling for fallen fruit, and surviving kidnapping and murder on the Black Road, and return to German Displaced Persons camps at wars end. But to what fate? Originally written as a memoir just for his grandchildren, Milton Kleinberg gives a moving account of his familys hardships and eventual immigration with a lump-in-the-throat passage to America past the Statue of Liberty and into a land of opportunity tinged with bigotry yet with a promise to future generations. This book for young adults has been reviewed by the Institute for Holocaust Education and includes a glossary, a book club discussion guide, a timeline, and a Teachers Guide.
