

## Divorcing a Narcissist: Rebuilding After The Storm

Tina Swithins life was hit by a devastating Life Storm in 2009. Tina had recently heard the words, Narcissistic Personality Disorder used to describe her then-husband by a therapist yet she had no real understanding of how this disorder would turn her life upside down during a custody battle that spanned six-years. In less than a year, Tina lost her home, businesses, cars, worldly possessions and her marriage. In one fell swoop, everything was gone. In Family Court, Tina acted as her own attorney and finally, in 2014, secured peace and safety for her young daughters. A true lemon to lemonade story, Tina has rebuild her life and thrives in the aftermath of the Life Storm that threatened to destroy her. Tina has found solace is sharing her internationally recognized story with others in her series, Divorcing a Narcissist. She has dedicated her life to advocacy and consulting with others facing the same battles. In her new book, Rebuilding After the Storm, Tina takes her readers through the steps to rebuild their lives and thrive post-narcissist. Dr. Craig Malkin, psychology instructor at Harvard Medical School states, If you need to start over, this is the woman you want holding your hand through the process.
