

German Military Ribbon Bars 1914-1957 (Schiffer Military History Book)

German Military Ribbon Bars fills an obvious gap in reference works on German awards and medals. Drawing on many resources from around the world, his own collection, and with many unpublished photographs from 1914-1970, author Mark Hayden examines German ribbon bars from World War I, the Inter-War years, World War II and finally those worn by veterans in the reconstituted Bundeswehr of 1957. The wide variety of construction, styles, and combinations are discussed in detail, along with information on values, availability, and reproductions. This book is sure to be a welcome addition to the libraries of militaria collectors and students of military history alike.
