

A Scholastic Skills Book Problem Solving in Math C

About this book: There are all kinds of problems around you every day. You may not be able to solve a problem right away. First you must think: What is the problem about? What are the facts? What is the question? Then you plan how to answer the question. Next you act to solve the problem and answer the question. Finally, you look back and check to see that your answer makes sense. This book will help you learn how to solve many different problems in math.
