

Enquiring History: Nazi Germany 1933-45

Think more deeply and work more independently at A level History through a carefully thought-out enquiry approach from SHP. Enquiring History: It makes you think! The OFSTED report on school history suggests that the current generation of A Level students have been poorly served by exam-based textbooks which spoon-feed students while failing to enthuse them or develop deeper understandings of studying History. The Schools History Project has risen to this challenge with a new series for the next generation. Enquiring History is SHP's fresh approach to Advanced Level History that aims:

- To motivate and engage readers
- To help readers think and gain independence as learners
- To encourage enquiry, and deeper understanding of periods and the people of the past
- To engage with current scholarship
- To prepare A Level students for university

Key features of each Student book-

- Clear compelling narrative
- books are designed to be read cover to cover
- Structured enquiries
- that explore the core content and issues of each period
- Insight panels between enquiries provide context, overview, and extension
- Full colour illustrations throughout
- Web-based support includes-
- lesson planning tools and guidance for teachers available from the SHP website
