

Earth Fire and Sea Gods Story in Genesis

How do you understand the first three verses of the Bible? Be careful- your answer may tell more than you realize! In this in-depth study, Russ Bixler critiques the popular theory that these verses describe a creation out of nothing- as well as the theory of evolution! Instead he shows, from the original Hebrew, how the Creation week is a recent event (6,000-10,000 years ago) and how the primeval universe and earth can still be billions of years old. This book will change forever your thinking about Creation!
