

## The Celestine Prophecy: A Concise Guide to the Nine Insights

From an ancient Peruvian manuscript, the Nine Insights to life were first revealed in the phenomenal best seller, The Celestine Prophecy. Each human being would grasp the Nine Insights in time, predicted the text from the thick of the rain forest. But in an era of spiritual reawakening, author James Redfield brought these understandings to the forefront of modern thought. Now for the first time there is a program illuminating the Nine Insights, presented by the author himself. This guide is enhanced by excerpts from the authors lectures and original essays, and acts as an essential companion to The Celestine Prophecy, clarifying ideas which when applied effectively, can undoubtedly enrich our lives and those of others.
