

The Spirit Book: The Encyclopedia of Clairvoyance, Channeling, and Spirit Communication

The fascinating history of Spiritualism is coaxed into the material realm as the object of this perceptive and sweeping overview by that legendary author of the occult and supernatural, Raymond Buckland. Containing more than 500 entries and 100 illustrations, The Spirit Book is the comprehensive encyclopedia to Spiritualism and its related subjects. Plus it provides full biographies of every prominent person connected to the field. Drawing on decades of research, writing, and transcendence, Buckland describes sundry methods of channeling, events associated with Spiritualism, including seances and exorcism, organizations focused on clairvoyance, and a colorful host of mortals famous and infamous who delved into Spiritualism. Nostradamus, Helena Blavatsky, and Edgar Cayce receive their due, as well as Joan of Arc, William Blake, Susan B. Anthony, Winston Churchill, Arthur Conan Doyle, Mahatma Gandhi, Harry Houdini, and Mae West (look up and see her sometime). It explores Qabbalah, Sibyls, Fairies, Poltergeists; phenomena such as intuition and karma; objects useful in the attempt to cross the divide, including tarot cards, flower reading, and runes; and related practices such as Shamanism, transfiguration, meditation, and mesmerism.
