

## The Allies on the Rhine, 1945-1950 (The Soviet Union at War, Vol 3)

In *The Allies on the Rhine* Skrjabina describes the coming of the Allies to the Rhineland, the occupation, and the first clear signs of the recovery of war-shattered Germany. She describes what occurred and how it was interpreted at the time by a keen observer who had lived under Soviet, Nazi, American, and French rule. She describes the first chaotic days of the occupation when instead of the calm and peace expected as a result of the American advance, there was fearful chaos. She shows clearly that as the main allied forces moved on there was no real law and order and that she and the frightened populace were often terrorized by marauding youthful former work camp inmates over whom there was no effective control.
